

Real-time
theft
protection

Secure
charging of
e-bikes

Safer parking of bicycles

For the first time, ALL essential parts can be securely locked.
For private bikes, e-bikes or sharing bikes.

Excellently suited for:

- ✓ the public area
- ✓ company- or private parking areas
- ✓ residential buildings
- ✓ the tourist sector
- ✓ garages

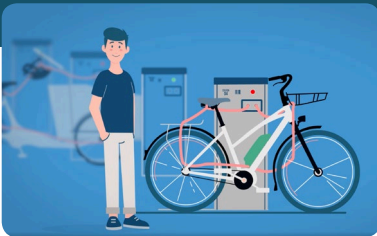

Most important customer request: Safety for the own bike

For the first time, ALL essential parts can be locked up safer.

An especially strong, extra-long (up to 3 metres) special rope provides the highest possible protection for all essential bike parts.

- ✔ bike frame
- ✔ front and back bicycle tyres
- ✔ saddle
- ✔ attachments, like child seat or shopping basket

Also suitable for other single-track vehicles, such as e-scooters, mopeds, cargo bicycles or sharing bikes.

Instructions in the short video at www.merokey.com

The bike stations

2 variants – the ideal station for each of your location

Merokey station V 2.20 and Merokey station V 2.22

- ▶ Each station includes 2 parking spaces – locking mechanism on both sides
- ▶ Depending on the version, it includes a **sheathed steel cable in lengths of 2.4 or 3 metres to secure all essential bicycle parts** – with real-time alarm on the mobile phone if the rope is cut
- ▶ Unique lock number: reservation and use via the Merokey web app or via QR code
- ▶ Status indication by LED light
 - green – free for use
 - orange – reserved
 - red – booked

Use through
easy-to-use
web app

Security Features

- ✔ The locking device is electronically linked to the user: **Lock and unlock only by web app or QR code, or optionally by RFID chip.**
- ✔ **Real-time alarm via SMS or e-mail** in case of rope cutting
- ✔ Optional notification of security services
- ✔ Optional **video surveillance** of the parking location and sound alarm on site

Safe use by battery system even in case of power failure.

Secure access even in case of mobile phone failure: via web access (tablet, notebook) or via authorised persons by using family sharing.

merokey station V 2.20

Ideal in public places

- ▶ Metal housing made of high-quality, acid-resistant stainless steel
- ▶ **Automatic cable retraction** with flexible rope lock in the required length
- ▶ Optional charging option for e-bikes and solar-powered power supply

merokey station V 2.22

The secure charging station for e-bikes

- ▶ Ideal for courtyards, garages, bike rooms, residential complexes, hotels and tourist sites
- ▶ Ideal for mounting on walls
- ▶ **Ideal e-bike charging** with lockable compartment for the charging cable
- ▶ Attractive design

Additional
benefit: bike
sharing

Family sharing: Share your own bike or lock with family or friends by filling in additional email addresses.

Traditional bike sharing: Operators can share bikes, cargo bikes, scooters, mopeds, etc. for public use via the Merokey app.

Advantages for operators

- ▶ Reporting: live data on system utilisation – variable utilisation statistics
- ▶ Individual tariffing and payment processing or clearing system via the app (if services with charges are required)
- ▶ Service management
- ▶ Easy management of “abandoned bikes”
- ▶ Possible use of advertising space on the Merokey stations
- ▶ Use of the app for additional mobility services, e.g. for company-owned sharing vehicles, cargo bikes, etc.
- ▶ Linking to own platforms is possible via interfaces

Service and operation

First-level support: by decentralised partners or owners of the system

Second-level support as well as software and data service: by Merokey GmbH
